

HA40

Portable Telephone Handset Amplifier

Designed for persons with moderate to severe hearing loss. Ideal for home and office. Use it on-the-go... even in hotels.

Features

Powerful amplifier provides up to 40dB of incoming voice amplification

Boost button allows for even more amplification and eliminates background noise and feedback by muting the microphone in the handset

Adjustable volume control lets you set the loudness to suit your hearing

Adjustable Tone Control (400-2600Hz) lets you adjust the frequency of the incoming voice so that even similar-sounding words, such as “chair” and “share”, are crystal clear and easy to understand

Connects easily between handset and phone base, no wiring involved

Works with analog and digital phones

HA40

Portable Telephone Handset Amplifier

Features (continued)

Compact and portable so you can take it with you anywhere

Works with either analog or digital telephones with a cord and where the keypad is in the base.

Battery indicator light comes on every time you lift the handset to indicate that the battery level is high enough (battery included)

One year warranty
